THE PLATFORM

One ecosystem, every stage of your journey

Five integrated tools — from your first career question to your first global opportunity.

AI Career Engine

Personalised pathways based on your aptitudes, interests, and Uganda's real labour market. Updates as you grow.

Premium

Mentorship Hub

Book 1-on-1 sessions with vetted professionals across Uganda, the UK, and Europe.

Premium

Smart Library

AI-curated learning resources matched to your exact career pathway and skill gaps.

Free tier

Opportunity Marketplace

Internships, scholarships, jobs, and fellowships — filtered by your age, location, and career track.

Free tier

Progress Dashboard

Track skill development and build a portable digital portfolio that proves what you can do.

Premium

USER JOURNEY

How C360 works for you

From first sign-up to first global opportunity — the C360 experience, step by step.

1

Create your free account

Sign up in under two minutes using your phone or email. Choose your education level, location, and areas of interest. A student in Agago District gets the same starting point as one in Kampala.

Free

2

Complete the C360 discovery profile

Answer a 10-minute guided questionnaire about your strengths, values, interests, and aspirations. The AI Career Engine uses this — alongside Uganda's current labour market data — to map your top career pathways.

Free

3

Receive your personalised career pathway

Your dashboard shows 3–5 recommended career tracks with: what each path involves, what skills you need, which qualifications open the door, and real employers in Uganda and internationally that hire in that track.

Premium

4

Join a C360 Innovation Club

Club sessions run hands-on innovation challenges — real community problems that teams of students design solutions for. Your ideas, prototypes, and reflections are added to your portfolio.

Free via school

5

Book your first mentor session

Browse the Mentorship Hub and filter by sector, country, or career track. Book a 30-minute video session with a verified professional — in Uganda, the UK, or Europe.

Premium

6

Discover and apply to real opportunities

The Opportunity Marketplace shows internships, scholarships, jobs, fellowships, and international exchange programmes filtered specifically for you. Apply directly and track your applications.

Free tier

7

Build and share your portfolio

Every course completed, mentor session attended, and innovation challenge attempted adds to your C360 Progress Portfolio — a shareable digital record of your skills and growth that you own permanently.

Premium

8

Go global through international exchange

Advanced members are eligible for international exchange programmes — including REVEL Roots, our partnership with Belgium for immersive food systems experiences in Uganda, and future exchanges with UK university partners.

Institutional / partner

OUR PROGRAMMES

Where learning meets the real world

C360 runs four programme streams — from AI career tools to international exchange.

Career intelligence

C360 Career Pathways

AI-powered personalised career mapping for secondary and university students, aligned to Uganda's Competency-Based Curriculum.

School programme

C360 Innovation Clubs

School-embedded innovation labs where students tackle real community challenges through project-based learning and mentorship.

Entrepreneurship

Business Incubation Lab

Structured support for student entrepreneurs — from idea to business plan, with access to mentors, financing guidance, and market connections.

International exchange

REVEL Roots Uganda

A 3-week immersive food systems programme bringing young Europeans to Uganda's farming communities — co-hosted by C360 and REVEL from Belgium.

In partnership with REVEL, Belgium

REVEL Roots Uganda — Programme Detail

1

Pre-departure (Belgium) — 3 workshops

Systems thinking, cultural competence, and adaptive teamwork workshops prepare European fellows before departure. C360 delivers an online introduction to Uganda's food system, agricultural economy, key exports (coffee, cacao, tea), and ecological and social context.

2

Field immersion in Uganda — 3 weeks hosted by C360

Fellows visit smallholder farms, cooperatives, agroecological farms, export-oriented monocultures, informal food markets, and processing facilities. Community dialogues, cooking with rural farmers, and engagement with Ugandan youth agripreneurs. Week 3: mixed Uganda–Belgium teams collaborate on the question "how can global value chains become more human and ecological?" Output: storytelling artefact (video, systems map, article).

3

Post-field (Belgium) — 3 workshops + public showcase

Impact design, public speaking, and reflective leadership workshops. Fellows present at a TED-style public event in Belgium alongside partners including Fairtrade and Rikoloto, broadcasting what they learned in Uganda to European audiences.

OUR IMPACT

Why it matters

42.6%

of Ugandan youth not in education, employment, or training — the gap C360 exists to close

24

young people employed through C360 founder's Gulu City enterprise — proof that structured opportunity changes lives

UK + EU

international exchange partnerships under development, creating two-way flows of opportunity

\$1 → \$4

return on investment in career and skills education, per WHO and World Bank evidence

"Before C360, I had no idea what career I was suited for. The AI pathway showed me agricultural extension work — and now I have a mentor at the Ministry of Agriculture and my first internship lined up."

Akello Grace

S.6 student, Gulu City — C360 Pilot Cohort

NETWORKS & PARTNERS
